SUMMARY

Highly productive individual with a desire to learn, collaborate, and succeed. Possesses strong organizational skills as well as the critical thinking required to find solutions to complex problems. Seeking a position to combine these skills with my growing knowledge of full stack web development to assist your company in meeting and surpassing its goals for success!

SKILLS

Languages: HTML5 | CSS | JavaScript | SQL | JSX | SCSS

Tools, Frameworks, & Libraries: React.js | Bootstrap | Materialize | Handlebars.js | Axios | JQuery | Node.js | MySQL | MongoDB | Mongoose | Express.js | ES6 | Sass

Concepts: Responsive Design | MVC Pattern | C.R.U.D. | APIs | MERN Stack | Big O Notation

PROJECTS

LockBox

GitHub - <https://github.com/DevMike42/LockBox>

Deployed - <https://lockbox-password-manager.herokuapp.com/>

- LockBox is a MERN stack application built as LastPass Clone for discretely storing and managing a user's sensitive password information. This app includes user authentication with JSON Web Tokens as well as data encryption using bcryptjs. React state and lifecycle features are managed with React Hooks
- MongoDB | Express.js | React.js | Node.js | bcrypt | crypto.js | JWT

Mostly e-Bikes

GitHub - <https://github.com/DevMike42/Mostly-eBikes>

Deployed - <http://www.mostlye-bikes.com/>

- A professional static frontend website for a local electric bicycle shop in Oceanside, CA
- Core responsibilities include designing and constructing the company web page from the start to finish as well as ongoing maintenance.
- HTML5 | SASS | Bootstrap | JavaScript

EXPERIENCE

Teaching Assistant & Personal Tutor / Full Stack Development Bootcamp Course

2019 – Present

Trilogy Education Services (U of Texas at Austin / U of Utah / U of Wisconsin)

Remote

- **Admin duties** – Assignment/Project grading, managing course content updates on class repository, time tracking lectures to ensure we are on pace with the lesson plans, and taking role.
- **Teaching Assistant** – Assisting students through in class activities: Walking them through error debugging, handling technical difficulties (ex. Correcting SSH key issues), and helping them learn to find solutions to problems by leading them to helpful information sources for understanding code.
- **Personal Tutor** – Managing and hosting weekly 1 on 1 tutorial sessions for multiple students and coordinating schedules for sessions via Calendly, Slack, and routine email reminders and confirmations. Helping students debug and complete their homework as well as further understand programming concepts they are struggling with dependent upon how far along he/she is in the curriculum.

Service Department Manager / Technician

Trek Bicycle Superstore *San Diego, CA*

2014 – 2016 and 2018-2019

Velofix Mobile Bike shop *Ventura County, CA*
